## FOR IMMEDIATE RELEASE

### Lane and Ramp Closures on Harbor Freeway (I-110) for Slab Replacement

**LOS ANGELES**— The California Department of Transportation (Caltrans) will close lanes and ramps of southbound Harbor Freeway (I-110) for a concrete slab replacement project. Work will be performed nightly on Friday, December 14 at 10 p.m. through Sunday, December 17 at 9 a.m. Four lanes including on and off-ramps from Gage Ave to I-105 will be closed. The express (HOT lanes) and first lane will remain open for motorists.

Closures are weather-permitting and subject to change. Motorists should expect delays and are strongly advised to avoid the area and use alternate routes. Additionally, motorists can check traffic conditions before they leave by visiting the Caltrans [Quickmap](#).

The closure is part of a \$39.5 million pavement rehabilitation project, which also includes upgrading guardrails, loop detectors, and curb ramps.

All American Asphalt of Corona, CA is the contractor on this project, which is anticipated to complete January, 2021.

Caltrans reminds motorists to “Be Work Zone Alert” and “Slow for the Cone Zone.”
